4X

greater recoveries for our clients when serving as lead or co-lead counsel

ACHIEVING EXTRAORDINARY RESULTS

The average securities class action recovery for cases in which BLB&G has served as lead or co-lead counsel is approximately four times greater than our competitors'. We achieve these results because we only pursue cases that have the greatest chance of recovery.

80+%

of our cases upheld past motions to dismiss

LOWEST DISMISSAL RATE

In over 80% of BLB&G's cases, the courts uphold the complaint and deny defendants' motions to dismiss—the best track record of any securities litigation firm. These results are due in part to our specialized in-house team of financial analysts and financial investigators, who rigorously vet each potential case upfront to protect our clients' reputations and interests.

Corporate governance reform—giving shareholders a VOICE and holding wrongdoers accountable

\$4B+

in increased value obtained for shareholders

Working with our institutional investor clients, we have helped shape the law in important ways. Through our groundbreaking litigation, we have preserved the rights of investors damaged by wrongdoing related to the financial crisis, and won appellate and U.S. Supreme Court battles that threaten to eliminate accountability for corporate management.

\$80M

recovered directly from directors and officers outside of insurance

Our corporate governance practice specializes in protecting investors against board and officer misconduct. On behalf of our clients, we have recovered billions of dollars in additional consideration in M&A transactions where boards, officers, and their financial advisors acted improperly or when the consideration offered in the transaction was unfair. We continue to lead the fight against corporate management that seeks to enrich itself at the expense of shareholders, permits or participates in corporate wrongdoing, impairs shareholders' ability to hold it accountable for mismanaging shareholder assets, and violates shareholder voting rights.

*SSLA data includes all cases filed since January 1, 2000 by the top firms (firms with at least five of the top 100 settlements)
