

BLB&G Again Tops SCAS All-Time List With More Top Recoveries Than Any Other Firm

February 2018

BLB&G continues to be recognized as one of the undisputed leaders in the nation representing investors in securities litigation.

For over a decade, ISS/Securities Class Action Services ("ISS/SCAS") has published the "Top 100 U.S. Settlements of All Time" report, a periodic compilation of the 100 largest securities recoveries in history.

The ISS/SCAS report recognizes BLB&G's exceptional track record as the law firm responsible for the most top recoveries and the most monies recovered for defrauded shareholders since 1995. Having served as lead or co-lead counsel in 33 of the top 100 U.S. securities fraud settlements, recovering nearly \$25 billion for investors in those cases, BLB&G continues to eclipse its competitors in other metrics:

- recovering nearly 40% of all the settlement dollars represented in the report (nearly \$25 billion – billions more than any other firm on the list); and
- securing a dozen settlements over \$500 million and six over \$1 billion – more multi-billion dollar recoveries than any other firm.

In addition, the report details how over 90% of the top cases of all-time have been led by institutional investors. The institutional investor community should be applauded for its dedication and commitment to prosecuting meritorious securities cases and securing billions of dollars of recoveries for investors while holding wrongdoers accountable.

BLB&G is honored and privileged to represent its clients and the institutional investor community in so many of these high-profile matters. Since the firm's founding, BLB&G has been grateful for the faith its clients have placed in the firm to serve them and the classes it represents, and this success could only have been achieved with their support and trust.
