In a recent survey by Inigo Insurance covering case trends and predictions in the D&O litigation space, top defense law firms were asked to rank plaintiffs' securities firms based on their effectiveness as shareholder advocates and litigators, and their case outcomes. BLB&G ranked first, receiving 50% of the votes from respondents, and was identified as the most respected and formidable securities plaintiffs' law firm, with one respondent describing the firm as a "formidable advocate for shareholders."

BLB&G was also recently named in BTI Consulting Group's report, *The BTI Litigation Outlook 2022: Post-Pandemic and Beyond*, as one of the most feared law firms in litigation and one of the most intimidating opponents, which can be read [here](#).
