February 3, 2026

Law360 has profiled BLB&G as a 2025 Class Action Group of the Year, recognizing the firm for securing outstanding results in securities class actions involving companies such as EQT and Turquoise Hill.

The article highlights the firm's major securities class action victories in 2025. In *EQT Corporation*, the firm secured a \$167.5 million settlement for investors, alleging the company overstated the benefits of its \$6.7 billion merger with Rice Energy. In another high-profile case, BLB&G obtained a \$138.75 million settlement against Turquoise Hill Resources, where investors were allegedly misled by mining company Rio Tinto regarding enormous cost overruns at a gold copper mine in Mongolia.

Partner and Executive Committee member Salvatore Graziano attributed the firm's success to its strong base of institutional investor clients:

|

We've been so successful because we have this tremendous client base, so when there are strong cases that warrant their participation, they're eager to do them.
