On March 10, 2022, BLB&G partner Abe Alexander and NERA Economic Consulting Managing Director Dr. David Tabak will present a webinar on *Statistics in Securities Litigation*. The course, which is being presented by Practising Law Institute (PLI), will discuss how statistics are used in securities litigation in analyses, including assessing market efficiency and estimating damages, and will cover the following:

- Role of statistics in securities litigation
- Understanding basic statistical concepts including statistical significance, p-values, and regression analysis
- Application to securities litigation
- Assessing strengths and weaknesses in statistical analyses used in litigation
