February 23, 2022

Partner Katie Sinderson will join ISS Governance Executive Director Jeff Lubitz at the HFM US Emerging Managers Summit on March 2, 2022 for a "fireside chat" focused on how hedge funds can recover their share of the billions recovered for defrauded investors each year in shareholder class actions.

This discussion will cover:

- Key trends & developments including ESG and COVID-related class actions, unique event-driven litigation, and growth in global (opt-in) cases
- The complex lifecycle of litigation often makes it difficult for hedge funds to participate
- What is ahead for the rest of 2022 and beyond
