

BLB&G Tops SCAS List With More Top Recoveries Than Any Other Firm in the Country

March 2015

BLB&G continues to be one of the undisputed leaders in the nation representing investors in securities litigation.

For over a decade, Securities Class Action Services (SCAS - a division of ISS Governance) has compiled and published data on securities litigation recoveries and the law firms prosecuting the cases. BLB&G has been at or near the top of their rankings every year — often with the highest total recoveries, the highest settlement average, or both.

BLB&G also eclipses all competitors on SCAS's recently released "Top 100 Settlements" report, having negotiated four of the ten largest recoveries in history; having recovered 39% of all the settlement dollars represented in the report (nearly \$23 billion); and having prosecuted more than a third of all the cases on the list (34 of 100).

The Top 100 Settlements Semi-Annual Report identifies the largest securities class action settlements filed after the passage of the Private Securities Litigation Reform Act of 1995 that have obtained final approval, and provides detailed information on the law firms prosecuting those cases.
