

# Financial Torts & Commercial Litigation

When controversies arise outside of traditional securities or corporate governance litigation, BLB&G delivers the depth of experience and analytical rigor required to protect our clients' interests. Our Financial Torts & Commercial Litigation Practice prosecutes high-stakes matters involving:

- **Alternative financial instruments:** Private investment vehicles, equity-linked notes, collateralized debt obligations (CDOs) and other structured products, residential mortgage-backed securities (RMBS), LIBOR-linked investments, cryptocurrencies and other financial instruments.
- **Complex commercial matters:** Contract, fiduciary duty, and business tort actions that demand sophisticated financial analysis and trial proficiency.

Drawing on decades of success for institutional investors, sovereign wealth funds, insurance companies, and asset managers worldwide, we combine deep market knowledge with aggressive, creative advocacy to recover losses and enforce contractual and fiduciary obligations.

## What Sets BLB&G Apart

### Our Advantage

**Proven results in cases involving novel issues and asset classes.** From RMBS and CDOs to LIBOR products, cash-sweep programs, and private-fund disputes, we have secured multibillion-dollar recoveries when no standard playbook existed.

**Technical and trial firepower.** Former prosecutors, certified fraud examiners, CFA-level financial analysts, and seasoned first-chair trial lawyers work as one team.

**Case Development & Client Advisory Group.** Our dedicated in-house investigators, financial analysts, and data scientists generate proprietary intelligence to identify claims and support their resolution.

### Your Benefit

Meaningful recoveries on losses many investors believed were unrecoverable.

Credible cases built on rigorous financial analysis, with the courtroom experience to see them through.

A partner that helps you identify your valuable claims and navigate the path to recovery.

## Representative Matters

Below is a sampling of significant engagements that demonstrate our experience across financial-instrument and commercial disputes. These matters reflect the Firm's ability to identify novel claims, develop robust fact records, and deliver substantial recoveries across the modern financial and commercial landscape.
